

Progress Report

Client: Ronald Graham Group

Facility: 10 Rocheid Park

Report Date: 14/10/2014

Roof Section: Flat Roof

Report Data

Title
Final Inspection

Contractor: Ronald Graham Roofing Ltd

A final inspection was carried out by Tim Jones and Gilles Drummond of The Garland Company.

All waterproofing works have now been completed on the roofing project. Garlands Stressply Evolution system was installed to all areas after the old waterproofing was stripped off. The flat areas and detailing work has been completed to a high standard, with every lap being well sealed on the system. We confirm that we are happy with the installed roofing system and can now issue the guarantee.
